E-Fish-Ent Fish Company Ltd. is a seafood processing business located on the West Coast of Vancouver Island in beautiful British Columbia, Canada. Our plant is federally licensed and inspected. An ongoing testing and sampling program by the Canadian Department of Fisheries and Oceans is in place for quality control (HACCP). Our products are of an all-natural origin without any added preservatives or artificial substances. Our salmon fillets are handled with utmost care, using the best ingredients available. All of our fish have been individually selected, hand cut, and hand packaged. We strive to maintain the highest possible standards. The salmon is smoked with locally grown wood for a great smoke flavor in the traditional style of the Canadian West Coast. Custom processing: We have a specialty processing and canning facility where we are able to prepare and thermally process fruits, vegetable sauces, meats or seafood. We are primarily interested in doing custom processing work and do very little in direct sales. Please see our website for more information or give us a call.

Company Notes:

J. Beethoven's Corned Beef often gets compared to that which is offered at the Carnegie Deli in New York and Schwartz's in Montreal. I am a native New Yorker. My product is strictly hands on, non injected, tender and flavourful. The briskets are cured in barrels and turned every few days for a two-week period before they are cooked.

Products Available:

J. Beethoven's Corned Beef - Year Round

Corned beef brisket, fully cooked, that is sold to various restaurants and hotels in the Vancouver area. It is an artisan, hands-on product that sits in a brine for two full weeks before being steamed in a baker's oven. I use only Alberta beef and a generous amount of whole pickling spice. I do not inject my product and cook it to the proper point of tenderness so that it is not rubbery, but falls apart as brisket should.

Free range, heritage breed pork, all on the list of rare breeds of Canada. Our pigs are allowed to roam freely, socialize and engage in instinctive behavior such as rooting, wallowing and foraging. All breeding animals live in social groups; even the boars are together with the sows all the time. There is no teeth clipping, tail docking or ear marking. we leave our litters together to avoid stress and fighting. Our sows are not crated. Instead, they give birth naturally and raise their young without interference. All animals have free-choice access to outdoors at any time. Sunshine, fresh air, good feed and a stress-free environment eliminate the need for any medications. No animal by-products are used in our feed except for occasional milk and hard boiled eggs. We don't administer antibiotics routinely and don't use hormones or steroids at all. We grow everything on the farm that makes the difference in our pigs' diet and, with that, the quality of our pork. Our farm has no waste issues; manure is returned to the soil where it becomes fertilizer. Our pork is selected to have a high percentage of intramuscular fat, like a choice steak. You can expect a different texture of the meat, darker colour, more marbling and incomparable flavour compared to any conventionally-raised pork. Truly local, truly exceptional pork!
