Company Notes:

The majority of the pickles and relishes are processed in the fall using fresh product from local suppliers. Jams are usually made from frozen products as ordered, which results in a fresher product for the customer. Pectin is used when necessary. The majority of the jams are processed using a longer cooking method so less sugar is used, bringing out the natural flavours of the fruit. Product is not certified organic but our motto is "as natural as possible." No chemical preservatives or stabilizers are used.

Cabernet Sauvignon Red Wine Vinegar - Year Round

Cabernet Sauvignon Red Wine vinegar made in the traditional Orleans method. Using high quality carbernet sauvignon grape juice we create the wine without any additives. The wine is then transferred to French Oak barrels where the wine is converted to vinegar over a 3 month period. The vinegar is further aged in oak for an additional 3 months then bottled into 200ml retail and 750ml food service bottles. Creating vinegar in the slow process of the Orleans method retains the flavour and body of the wine making a savoury vinegar that is delicious in dressings, marinades, reductions, and deglacing. No additives are used in the entire process.
