Plum - Year Round

Part of our fruit salsa line. This salsa has slightly sweet but tart flavour. Accompanies meaty fish (Tuna, Swordfish) very well. Try it with cajun pork or simply spoon over roast lamb. If you aren't feeling so adventurous use as a regular salsa with tortilla chips. Great with fruity red wine!

Peach - Year Round

This fruit salsa is a far cry from the usual tomato based salsas currently in the marketplace. It uses all natural ingredients and has a very balanced flavour. It has a slight hint of heat. Excellent with white fish, shell fish and chicken. Also good with creamy cheese and as a condiment to enhance dishes. Great with a semi dry white wine!

It's fitting that a company dedicated to the culinary arts was born at the Filberg Festival, an annual celebration of artists, artisans and great food in the Comox Valley on Vancouver Island. The creative sparks for Artisan Edibles flew when Judy McArthur and Maureen Drew discovered their shared passions for gourmet food, design and small business at Filberg. Within six months, they formed a partnership and developed a business plan to introduce their own commercial product line under the Artisan Edibles label.

Company Notes:

Two of our challenges in life were how to live lightly on this beautiful blue planet and how to do something worthwhile. Shellfish aquaculture has enabled us to meet these challenges. We have refined our farming methods to be compatible with the environment. We maintain genetic diversity by collecting wild seed, and the oyster rafts act as nursery reefs for a wide range of fish, algae, and invertebrates.

Our oysters and clams feed only on naturally-occurring marine plankton. No chemicals, pesticides, or colouring agents are used in the growing of our shellfish. The blend of growing healthy, top-quality shellfish and living the outdoor marine lifestyle is one we truly enjoy. Our commitment is to provide premium-quality shellfish for your enjoyment; and to do so in a manner that allows future generations the same opportunity.

Products Available:

Georgian Baguette - Year Round

Georgian Baguette is one of the oldest breads in the world and originates from the land of Colchis (present day Georgia). According to Greek mythology, Colchis was a beautiful land situated on the mysterious periphery of the heroic world. Here in the sacred grove of the war god, Ares, King Aeetes hung the Golden Fleece until it was seized by Jason and the Argonauts. Ingredients: organic white flour, sea salt, yeast, lemon juice, and filtered water. All European Breads products are made by hand, using artisan methods and original recipes.

100% Barley Bread - Year Round

Barley played an important role in the ancient Greek culture as a staple bread-making grain. It was an important food for athletes, who attributed much of their strength to their barley-rich training diets. Roman athletes continued this tradition of honouring barley for the strength that it gave them. Barley's claim to nutritional fame is based on its being a very good source of fiber and selenium, as well as a good source of phosphorus, copper, and manganese. Ingredients: barley flour, barley bran, bacterial culture, sea salt, and filtered water. All European Breads products are made by hand, using artisan methods and original recipes. Packaged in a biodegradable bag!

Ancient Roman Spelt Bread - Year Round

Spelt is an ancient grain that traces its heritage back long before many wheat hybrids. It offers a broader spectrum of nutrients compared to many of its more inbred cousins in the wheat family. It is an excellent source of Vitamin B2 and a good source of niacin, thiamin, and copper. This particular combination of nutrients makes spelt bread an excellent choice for people suffering from migraine headaches, atherosclerosis, or diabetes. Ingredients are: spelt flour, spelt bacterial culture, sea salt, and sunflower oil. All European Breads products are made by hand, using artisan methods and original recipes. Buckwheat Bread - Year Round

All of the vinegars used in the dressings are made at Little Creek using my own formulas. Company Notes:

Gort's Gouda Cheese Farm is a family-owned and operated company . We have been in business for over twenty years. Our specialty cheeses are made right on the farm. Our Gouda, Yogurt, Quark and Feta Cheeses are made from locally-produced milk. Our newest line of cheese is the Organic Maasdammer, produced from our own small herd of milking Shorthorns and Brown Swiss. Please see our website for more information.

Products Available:

Gouda Cheese - Light, Spiced and Smoked - Year Round

If you think a cheese with a lower fat content would be dry and without flavour, think again! Our light-style Gouda is moist and surprisingly flavourful. With a milk fat content of 17% (while our other cheeses are 33%), our Light Gouda sells remarkably well. A light/low salt Gouda is also available in our store. With our Spiced Gouda, there are 13 flavours to choose from; including red pepper, peppercorn, parsley, Italian, Greek, jalapeno habenero, habenero, and cumin. If you like that "smoky" taste, here's your cheese: our smoked-flavoured Gouda remains a popular choice with its creamy texture. Look for it in its black, waxed coating.

Bulgarian Yogurt and Quark - Year Round

This increasingly popular yogurt can be eaten plain, with granola, or blended with liquid honey and some fresh Okanagan berries to serve as a tasty fruit smoothie! Made the old-fashioned way, the yogurt is hung in cloth bags to thicken, and no preservatives or thickening agents are added. The milk fat content of the regular yogurt is 7%. Quark has \hat{A} ½ the fat of regular cream cheese, and can be used in cheesecakes, as a spread with spices or jams, or blended with fresh fruit. Quark has a milk fat content of 12%, and has been around - according to scripts from ancient Greece, China, Rome and Middle Eastern countries - for centuries as a nutritional food item. It is also available in low fat.

Cow Feta Cheese - Year Round

Available in plain, oregano/tomato/garlic, and tomato/basil. Feta is a classic curd cheese whose tradition dates back thousands of years. Feta is a staple, crumbled in Greek salad; but donâ€™t stop there. It is a great addition to any salad or pasta dish, or try it on pizza! Traditionally, feta was made from goat or sheeps' milk. Our feta is made from cows' milk, giving it a slightly milder flavour. Our feta comes in approximately 200 g pieces and is vacuum packed. If you prefer some more flavour, try the spiced feta available in basil

Gouda Cheese - Mild, Medium and Aged - Year Round

If youâ€™re looking for some good old-fashioned plain gouda, there are three choices. All of them are creamy, well textured, and range from a mild gouda flavor to the distinct, hearty taste of our award-winning Aged. The Mild Gouda is about two months old

and is perfect if you're looking for a lighter-tasting cheese. Our Medium is four to six months old, giving it a little bit stronger taste than the Mild. Both the Mild and Medium are also available in the traditional "Dutch Style" which means a coating is applied by hand to give the Gouda a harder rind, in turn giving the cheese a slightly nuttier flavor. Alas, the Aged Gouda. Receiving first place at the Canadian Cheese Grand Prix in 2004, we can barely keep this one on the shelf! Aged for at least one year or more, this cheese has an extremely creamy texture and rich flavor. It melts in your mouth!

Maasdammer Cheese - Mild, Medium, Aged and Spiced - Year Round

A Swiss-style cheese with semi-firm texture and large eye formation. The Maasdammer has a slightly sweet and nutty flavour. The cheese is made with our own unpasteurized cows' milk. The cows graze on grass and are fed our own special blend of feed that is blended and ground on our farm. Maasdammer is made in 8 kg wheels. No preservatives or artificial flavours are used in the producing of this cheese. Maasdammer is an excellent cheese to use in sandwiches, fondues, cheese sauces and soups. It is available in mild, medium and aged flavours. The Maasdammer is produced in small batches to ensure quality.

Artisan cheese production; goat and cows' milk cheeses. Fresh, surface-ripened and aged varieties – all made from milk pasteurized at our operation.

Products Available:

Goat Milk Varieties - Year Round

Our Goat's Milk arrived on the island from Abbotsford - where the animals are cared for by an award-winning farmer and a leading authority on the North American Goat Industry. The farm is "transitional organic" meaning they are currently undergoing the accreditation process necessary to guarantee the organic nature of their farming practices. Due to the meticulous feeding practices at the farm there is a distinct mild flavour to all the cheeses we produce. Cooking with our goat cheeses enhances the pungency - but not too overpoweringly.

Belle Ann Cheese - Year Round

Belle Ann (MF/MG 31% - MOIST/HUM 39%) - A French-inspired tomme or loaf of cheese, the rind of which has been gently washed/massaged for up to thirty days in Vancouver Island blackberry port. The intended purpose is to encourage the breakdown and ripening of the cheese from the rind towards the center. A light but distinct pungency develops with a striking contrast of the blue/grey rind against the white pate of the cheese. This product comes in two (2) formats, 600 g and 2.2 kg.

Cheddar Portions - Fall Spring Summer Winter Year Round

Cheddar Portions enveloped in Black Cheese Wax (MF/MG 31% - MOIST/HUM 39%). A rich creamy version of the centuries old recipe – packaged in a format ideally suited for the restaurateur who wishes to give a guest a portion of cheese without challenging storage issues. Each portion is approximately 40 grams in weight and coated with black cheese wax, making for an elegant and contrasting presentation on any cheese platter.

Chevre Cream Cheese -

Chevre (MF/MG 22% - MOIST/HUM 64%) - A striking white cream cheese, unique in its flavour. Served fresh and stored frozen, this cheese gives a chef a high degree of versatility for menus calling for goat cheese – and yet it is considerably economical in value. Formats range from 250 g to 1 kg cryovac.

Dairy (Cow) Milk - Varieties - Year Round

Our milk comes from a Vancouver Island farm, where the family believes passionately in allowing its herd to graze upon the natural grasslands surrounding its farm from spring until fall. This ensures higher levels of omega-3 fatty acids, vitamin E and higher concentrations of conjugated linoleic acid. See "Meet Jo Robinson" at the www.eatwild.com website.

Feta Cheese - Year Round

Feta (MF/MG 22% - MOIST/HUM 55%) - Following a recipe passed down from a master cheese maker has enabled the creation of a feta that rivals Old World versions “yet is fresh and zesty here on the West Coast. Delivered in multiple size formats “ cryovac or delivered in whey brine.

Fromage a la Crème - Year Round

Fromage a la Crème (MF/MG 22% - MOIST/HUM 64%). A light-lemony-spreadable cheese, which lends itself to a chef’s creativity. Blended with savoury or sweet ingredients, this deep-yellow, fresh cheese offers staff a unique alternative to standard cream cheeses as well as being an interesting substitute for Ricotta. Although served fresh is best, this is one cheese that freezes well, allowing for good inventory and cost control. This product can be shipped in various size-formats (ie. 250 g, 500 g tubs and 1kg cryovac).

Goat Cheddar Portions - Year Round

Goat Cheddar Portions enveloped in black cheese wax (MF/MG 31% - MOIST/HUM 39%) - A brilliant white version of the centuries-old recipe, packaged in a format ideally suited for the restaurateur who wishes to give a guest a portion of cheese without challenging storage issues. Each portion is approximately 40 grams in weight and coated with black cheese wax, making for an elegant and contrasting presentation on any cheese platter. Larger formats of waxed and un-waxed portions are also available from 250 g to multiple kilogram weights.

Red Dawn Cheese - Year Round

Red Dawn (MF/MG 31% - MOIST/HUM 39%) - A French-inspired tomme or loaf of cheese, the rind of which has been gently washed/massaged for up to thirty days in Vancouver Island ales and ciders. The intended purpose is to encourage the breakdown and ripening of the cheese from the rind towards the center. A light but distinct pungency develops, enhancing the buttery, creamy nature of the cheese. The rind of Red Dawn has a warm orange hue. This product comes in two (2) formats, 600 g and 2.2 kg.

Special Orders -

We welcome input from chefs as we strive to produce a cheese unique to an individual’s specification.

St. Clair Cheese - Year Round

St. Clair (MF/MG 25% - MOIST/HUM 50%) - Our velvety version of a “Camembert-style” cheese. Whoops “ did we call this “Camembert”? Unless we produce the cheese in Normandy France from raw milk from the Norman cows, following strict adherence to controlled specifications, use of the word “Camembert” is verboten. So we didn’t; ours is St. Clair “ a West Coast inspiration with a nutty flavour and a wonderful white rind bloom with hints of a mushroom-like aroma. For presentation, we offer the food service industry a multitude of shapes “ from the small button or thimble-shaped cheese, through to Valencay shape, as well as traditionally-shaped cheeses. In most cases at the beginning of the ageing process we cut the cheeses in half “ allowing for better portion control and the ability to showcase various cheeses, while living within budget constraints.

St. Michel Cheese - Year Round

St. Michel (MF/MG 25% - MOIST/HUM 50%) - A goat version of our St. Clair; that’s the one we cannot call “Camembert.” Though with a different name, it has the same delectable qualities attributed to St. Clair “ rich in creamy texture, nutty, mushroom-like rind “ with a flavourful goat pungency.

Company Notes:

J. Beethoven's Corned Beef often gets compared to that which is offered at the Carnegie Deli in New York and Schwartz's in Montreal. I am a native New Yorker. My product is strictly hands on, non injected, tender and flavourful. The briskets are cured in barrels and turned every few days for a two-week period before they are cooked.

Products Available:

J. Beethoven's Corned Beef - Year Round

Corned beef brisket, fully cooked, that is sold to various restaurants and hotels in the Vancouver area. It is an artisan, hands-on product that sits in a brine for two full weeks before being steamed in a baker's oven. I use only Alberta beef and a generous amount of whole pickling spice. I do not inject my product and cook it to the proper point of tenderness so that it is not rubbery, but falls apart as brisket should.

Okanagan Lavender is a vertically integrated farm. We grow, harvest, process, manufacture and market all of our products â€“ about 24 in total. We have created many bath, culinary and home products using essential oils and the dried buds of the lavender plant. We use only natural ingredients; no additives, fillers, colourants or preservatives. Everything is made in small batches and often made fresh each week - we aspire to demonstrate our attention to detail in the quality of our products.

Company Notes:

This is a Canadian company founded by Latin Americans. Latin Organics' mission is to promote organic agriculture in Latin America, starting with Colombia, in the hope that illicit crops may be reduced. We want to create awareness, not only in the producing countries but also in the markets that we penetrate. Our first product is truly unique because of its origin and the hands that cultivate it. We pride ourselves on striving for perfection, balance and making a real difference in everything that we do. This coffee is hand picked, sun dried and bird friendly. It is grown under shade, and it is exported and imported by Latin Organics. It is roasted to perfection in small batches and delivered as it is being ordered. We have paid detailed attention to our packaging design/content and quality control of our product. This first product is the pioneer that will set the terrain so that Latin Organics may continue to bring other exceptional products. We choose to work with those that are at the highest risk of losing their livelihood or traditions.

Products Available:

Coastal Peak Roasted Coffee - Year Round

An invitation to reconnect with your roots - a spiritual connect.

100% Colombian, Fair Trade, Organic Roasted Coffee coming direct from its country of origin. This first product offers a unique cup of spiritual arabica beans that have been blessed by the indigenous farmers that cultivate the coffee: the "richest and mildest, divine, superb" coffee as described by those who have had the chance to try it. This Medium Roast offers the chance for coffee lovers to make a cup of espresso without having to darken the roast or ruin its character by blending other beans ... unique quality - or just drinking the coffee as is. This first product is supporting Latin Organics' mission to implement fully the organic way of farming within the Colombian territory so that illicit crops, as well as poverty, may be reduced.

Mountain Meadow Honey is a small locally owned and operated apiary. Our honey is 100% pure, unfiltered, raw and harvested from fireweed in the Skeena Valley Area. Mountain Meadow Honey is never heated, filtered or pasteurized. Our process allows trace pollens, vitamins and active enzymes to be present. The area where the nectar is gathered is from isolated locations with high elevations of 4,000-6,000 feet. Free from any pollution or sprays makes this a truly unique honey. Considered by bee keepers as "the Champagne of Honey" fireweed honey is known for its pale colour and delicate flavour. To be organic the rules require the location and bees to remain constant for 3 years. Obviously our hives have to be moved out of the mountains in the winter making the certification impossible. Because of our remote locations and standards we feel we do offer the best uncertified organic honey available starting in August of each year until supplies last.

Company Notes:

Allergic to cows milk? Our sheep dairy products are a great tasting alternative.

Our sheep live outside all year round, guarded by livestock protection dogs. Animal welfare is a top priority on our certified organic farm. The Border Collies bring the flock from pasture to pasture and to the milking parlour.

Products Available:

Mountain Meadow Sheep Milk Butter - Summer

Unsalted and uncoloured. Available seasonally.

Mountain Meadow (Sheep Milk) Oliva Feta - Year Round

This is our feta that we marinate in cold-pressed olive oil, curry, rosemary and garlic.

Mountain Meadow Aged Sheep Milk Cheese - Year Round

For this type of cheese we apply the traditional methods of cheese making that my wife and I originally learned when we made cheese in the Swiss Alps in the early '80s. Our aged cheese grates and melts well.

Mountain Meadow Sheep (Milk) Droppings - Year Round

A soft unripened cheese, comparable to chevre. The sheep milk again makes this one milder and creamier compared to the same cheeses made from cows' or goat milk.

Mountain Meadow Sheep Milk Brie - Year Round

Very creamy brie, mild when young but can get stronger with aging. I prefer it at about 4-5 weeks, usually right around the "best before" time.

Mountain Meadow Sheep Milk Feta - Year Round

Well, feta should always be made from sheep milk. Sheep milk has a very mild delicate flavour. It is sweeter than cows' or goat milk, but very neutral. Better yet, try it yourself.

Mountain Meadow Sheep Milk Yogurt - Year Round

Available as a plain yogurt, either whole or fat free. Sheep milk has double the amount of calcium compared to cows' or goat milk.

Because of the rich milk, we do not need to add any sort of stabilizers to our non-homogenized milk.

Manna Bread,® Carrot Raisin, Cinnamon Date, Fruit and Nut, Millet Rice, Multigrain, SunSeed, and Whole Rye

This is a very pure, tasty and unique sprouted bread made without flour, yeast, sugar or salt. The baking is done in a manner that retains the excellent nutrition. Its sweet, moist, cake-like flavour and consistency are the result of naturally sprouting the grains for optimal nutrition, a process that converts the grain starch into maltose and other complex natural sugars.

Special attributes: Ingredients available from local producers are used when possible. For instance, carrots used in Carrot Raisin Manna Bread are from local BC, certified organic farms in season; out of season, they are from imported organic varieties. The sprouted whole wheat kernels come from the same Saskatchewan organic-farming family that has supplied Nature's Path from its beginning. Manna Bread is very high in natural fiber. It is best stored frozen until use and, once thawed, lasts 3 days in the fridge. Unit size: 400 gram loaf individually sealed in inner and outer moisture barrier.

Package features: Labeling printed directly on plastic bag to reduce packaging. Takes minimal space in freezer. Packaging presentation: Attractive simple package. Find full description, picture and ingredients at:

Company Notes:

For 50 years now Pastula Farms have made the best use of the rich history of Richard's Valley. Richard's Valley was first developed in 1863. The valley is unique because it floods every winter and is actually a floating bog. During the summer it is strong enough that you can drive on it, but during the winter it becomes what Catherine likes to call "vegetable soup". Catherine & Gord know the history and the fine balance of what works best to keep the fine balance happening in the valley. The natural rhythm of nature makes for a wonderful low impact way to grow great produce. When you buy their produce, you are enjoying the true taste of food, supporting a unique Canadian eco-system and helping to feed the flocks of Trumpeter Swans that arrive every winter to feast on the "vegetable soup".

Cabernet Sauvignon Red Wine Vinegar - Year Round

Cabernet Sauvignon Red Wine vinegar made in the traditional Orleans method. Using high quality carbernet sauvignon grape juice we create the wine without any additives. The wine is then transferred to French Oak barrels where the wine is converted to vinegar over a 3 month period. The vinegar is further aged in oak for an additional 3 months then bottled into 200ml retail and 750ml food service bottles. Creating vinegar in the slow process of the Orleans method retains the flavour and body of the wine making a savoury vinegar that is delicious in dressings, marinades, reductions, and deglacing. Free range, heritage breed pork, all on the list of rare breeds of Canada. Our pigs are allowed to roam freely, socialize and engage in instinctive behavior such as rooting, wallowing and foraging. All breeding animals live in social groups; even the boars are together with the sows all the time. There is no teeth clipping, tail docking or ear marking. We leave our litters together to avoid stress and fighting. Our sows are not crated. Instead, they give birth naturally and raise their young without interference. All animals have free-choice access to outdoors at any time. Sunshine, fresh air, good feed and a stress-free environment eliminate the need for any medications. No animal by-products are used in our feed except for occasional milk and hard boiled eggs. We don't administer antibiotics routinely and don't use hormones or steroids at all. We grow everything on the farm that makes the difference in our pigs' diet and, with that, the quality of our pork. Our farm has no waste issues; manure is returned to the soil where it becomes fertilizer. Our pork is selected to have a high percentage of intramuscular fat, like a choice steak. You can expect a different texture of the meat, darker colour, more marbling and incomparable flavour compared to any conventionally-raised pork. Truly local, truly exceptional pork!

Apple Cider - Fall Winter

We press our own Apple Cider here on our farm made from our own apples. We do not add water or any other ingredients to our Apple Cider. You can get the cider two different ways: Fresh Cider: is UV light pasteurized and is served in plastic containers (like milk jugs). This has a two week shelf life. Glass: Our cider that is served in our unique glass jugs is boiled and will keep on a shelf for years. It only needs to be refrigerated after it has been opened.

Black Currant and Red Currant Jams - Year Round

On our farm we also grow currants and have made our own black currant and red currant jams. This can be ordered in either 250ml or 125ml class jars.

Campari Tomatoes - Fall Spring Summer

The red plump tomatoes are a great size for salads and are also grown in our greenhouse.

We also have a greenhouse where we grow an assortment of veggies, including peppers. We have used the peppers to make a red pepper jelly. This is a spicy red pepper jelly containing jalepenos but it is great with mozzarella sticks, pizza or on chicken.

Spiced Apple Cider - Fall Winter

We also make another variety of the same cider but we add mulling spices. This is popular at Christmas time and is great cold or served as a warm cider. Some restaurants we have sold to add rum to this warm drink at Christmas time and tell me it is quite popular. The Spiced Cider comes in glass only for clients who are re-selling it but for serving purposes it can be sold in plastic with about a 6 week shelf life.

Company Notes:

Wineland Dressings was founded in 2000 by Peter and Valencia Young, when Peter, who was Executive Chef at Hillside Estate Winery in Penticton, was being constantly asked by restaurant clientele if they could buy the salad dressings served in the Barrel Room Bistro. Its location at a winery meant there was easy access to bottles, corks, labels, etc. There is also a tasting room and wine shop, a natural outlet for products. A small trial batch of Roast Garlic Balsamic Vinaigrette was produced and bottled, which very quickly sold out. Wineland Dressings was born, and we soon added the Raspberry and Black Pepper Vinaigrette. Our salad dressings are hand made in small batches from the finest available ingredients, locally-sourced where possible, and to the highest standards. All of our products are gluten free and contain no artificial thickeners, stabilizers or preservatives.
